The diagram illustrates a network topology with two parallel paths between a source and a destination. The top path consists of a source node 'BYE' connected to a node 'W1', which is connected to 'brendan STRYDOM'. The bottom path consists of a source node 'BYE' connected to a node 'W2', which is connected to 'BYE'. A central node 'W3' is connected to both 'brendan STRYDOM' and 'BYE'.

The diagram illustrates a multi-branching tree structure. It starts with a single root node on the left, which branches into four separate paths. Each path consists of a sequence of nodes connected by horizontal lines. The nodes are labeled as follows:

- Branch 1 (top): **BYE**, AA1, **BYE**
- Branch 2: **BYE**, AA2, **BYE**
- Branch 3: **BYE**, AA3, **BYE**
- Branch 4 (bottom): **BYE**, AA4, **BYE**

 The vertical alignment of the **BYE** labels indicates that they represent the same hierarchical level in the tree structure. The horizontal lines connect the nodes in sequence along each branch. The branches are separated by vertical gaps, and the overall structure is symmetrical.
